

General Data Protection Regulation (GDPR) Agreement

The General Data Protection Regulation (GDPR) replaces the Data Protection Act and came into effect on 25th May 2018. The data protection laws needed to change because the old ones were out of date in today's digital world. The GDPR was created to strengthen data protection for people within the EU. It aims to give individuals more control over their personal data and make it easier for them to access.

I confirm that any individual whose data I have provided has given me permission to provide you with their contact details and has given you permission to contact them if necessary. I will keep you up to date with any changes.
