Foundation Stage Weekly Newsletter

Dear Parents and Carers,
Another busy week of learning and play. Just a few updates...

Space Topic

The children have been loving learning about Space. They have been writing facts in their literacy books. Ask them to tell you what they have found out about the planets.

Next week we are going to be learning more about our moon.

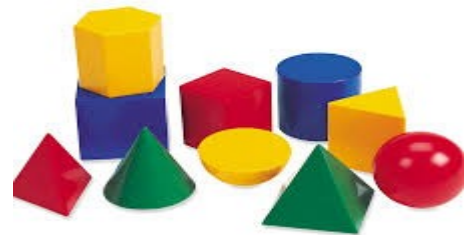

If you have books you would like to bring in and share that would be great.

Keep up-loading to Tapestry, thank you very much for all your observations so far!

3D shapes

We have continued to look at 3D shapes this week. We have been learning their names and counting how many faces each shape has.

Warm Weather

As we have been lucky with the warm weather, could we remind you that children will need a water bottle in school and sun cream needs to be applied at home.

Nits

Please check your child for nits as there seems to be some around. You can get the nit lotion free on prescription or at Lloyds Pharmacy, East Cowes. You can also comb through hair using conditioner and a nit comb.

If you have any questions or concerns please do not hesitate to speak to one of us.
Thank you in advance for your co-operation and support,
Foundation Stage team
