# Foundation Stage Weekly Newsletter

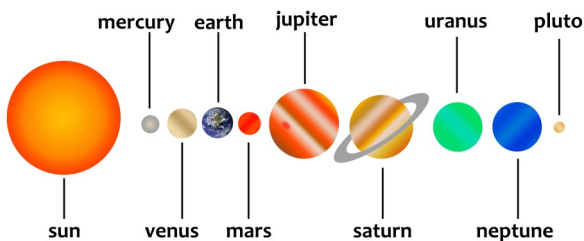

Dear Parents and Carers,

We hope you have a super Mother's Day on Sunday!

## Space Topic

The children have really enjoyed learning about our new topic Space. We have been learning facts about the different planets, ask your child what they can remember.

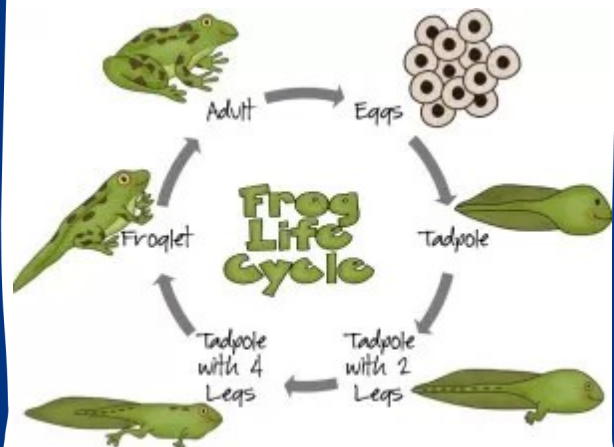

## Tapestry Challenge

Please record any imaginative play onto Tapestry this weekend for us to share on Monday.

## Frogs

It has been very exciting to watch the frogs in the school pond this week. We will be collecting some frogspawn to look after in the classroom. The children will be able to watch as they grow into tadpoles and then into froglets. We will learn about the life of the frog and we will release them back into the school pond.

If you have any questions or concerns please do not hesitate to speak to one of us. Thank you in advance for your co-operation and support.
