## Foundation Stage Weekly Newsletter

Dear Parents and Carers,

We have been learning about the story of The Gingerbread Man, maybe over the weekend you could make some...enjoy!

### Reading

Please listen to your child read for at least 10 minutes per day. Research shows that parents who support their children at home achieve better academic results in the future. Sharing books provides an opportunity to extend vocabulary and can influence children's attitudes towards reading, as well as building their confidence in their own ability.

We have noticed that a lot of uniform is not named! When items go missing it is very hard to return it if it is not named. Please check your child's clothes including their shoes. Thank you.

### The Patch Sessions

We have had some fantastic sessions on The Patch this half term. **Next week will be this group's last session until next term.** We are going to celebrate with hot chocolates around a real fire. Please make sure that your child comes to school wearing very warm clothes for their Patch session. After half term the groups will change.
